

## #Expressions, Statements, Blocks, and Logical Branching

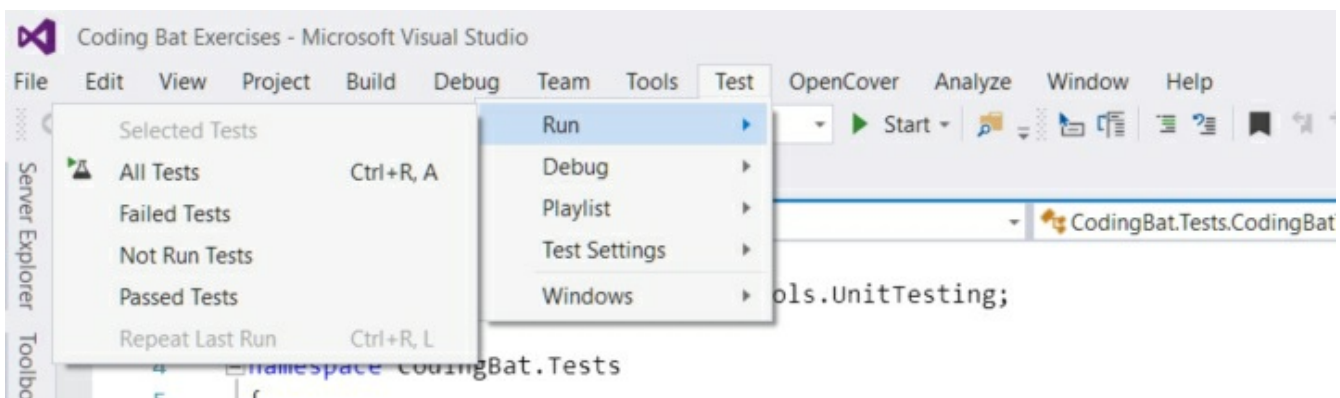

This exercise is made up of thirty-five small coding problems. Each problem is independent of the others, and they can be solved in any order.

**Note, If you find yourself stuck on a problem for longer than fifteen minutes, move onto the next, and try again later.**

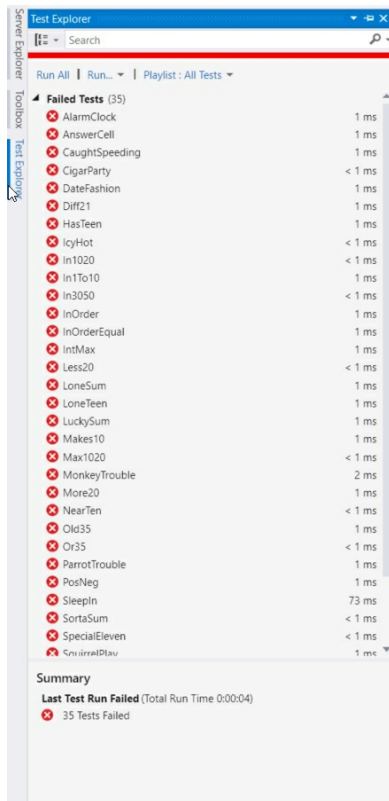

C# source code has been provided for you in this repository. Please fork the repository, and import the code into your Visual Studio Projects folder.

## Running the Tests

1. Click on the **Test->Run->All Tests** Menu

2. Click on the **Test Explorer** tab to see the results of your tests and which passed / failed.

If you have any questions, or concerns, please see one of the instructors.
